Stellite**

Deloro Stellite Group

As one of the leading companies in the field of wear technology we develop optimal solutions - and manufacture the parts - for many different industrial wear problems.

Our emphasis at our plant in India is to see several welding and thermal spraying processes to hard-face components. Our finishing processes round off our wide range of services - from consultancy on the selection of materials and process to the delivery of finished parts.

Deloro Stellite India Pvt. Limited, a Joint Venture of Deloro Stellite Germany and Virgo Consultants New Delhi, located in Manesar, HY, is offering the following job opportunity:

Technical Manager with University Diploma

Tasks:

- ◆ Manage all technical, technology and quality related issues of a fast growing enterprise presenting world class technology to India.

Requirements:

- ◆ Theoretical and practical knowledge of thermal spray processes (HVOF, SF) and Hardfacing by Welding (PTA, MIG, TIG). At least 5 years experience required
- ◆ Metallurgical know how
- ◆ Experiences in grinding and turning of hardfaced parts
- ◆ Wide experience in common engineering questions
- ◆ Capability and willingness to run the equipment him-/herself for parameter development
- ◆ ISO 9000 experience, capability to live and develop a QS system
- ◆ Strong communication capabilities in international dimensions
- ◆ If available, publications in the required field.

If you are interested in this challenging opportunity please contact us.
